

DVR9K 16-CH HYBRID

DSDH916

Dual IP and Analogue DVR with Real-Time Hi-Res Recording for High End Installations

Features

- ✓ Stunning Picture Quality
- ✓ Analogue and IP Camera Inputs
- ✓ Real-Time Recording on All Channels
- ✓ Simultaneous Multi-Channel Playback

Description

At last a high end DVR that works with both analogue and IP cameras. This makes new systems and upgrades easier all round.

You can upgrade their DVR but still use their existing analogue cameras and add new IP ones as and when needed.

With massive internal storage of up to 16TB in such a compact attractive case the dvr9K puts other DVRs to shame.

User management allows you to set up users and user rights to suit your application giving you total flexibility.

The client software that comes with the DVR is easy to use and allows you to monitor and configure your DVR from anywhere in the world!

With other feature such as tri-stream technology, multi channel playback, alarm notification, email notification and even monitoring via a mobile phone the dvr9K is a perfect tool for high-end retail and public sector CCTV installations.
